DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept.

The species are as follows:

Figs. 1-3 constitutes Species 1

Figs. 4-6 constitutes Species 2

Fig. 7 constitutes Species 3

Fig. 9-11 constitutes Species 4

Fig. 12,13 constitutes Species 5

Fig. 18,26,28,29 constitutes Species 6

2. Applicant is required under 35 U.S.C. 121, in reply to this action, to elect a single disclosed species to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently there is no generic claim.

3. The applicant is advised that a reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Art Unit: 2673

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variant or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in rejection under 35 U.S.C. 103(a) of the other invention.

6. The species listed above do not relate to a single general inventive concept, the species lack the same or corresponding special technical features for the following reasons: they do not teach same or similar limitation.
